From the author of the New York Times bestseller *So You Want to Talk About Race*, a subversive history of white male American identity. What happens to a country that tells generation after generation of white men that they deserve power? What happens when success is defined by status over women and people of color, instead of by actual accomplishments? Through the last 150 years of American history -- from the post-reconstruction South and the mythic stories of cowboys in the West, to the present-day controversy over NFL protests and the backlash against

the rise of women in politics -- Ijeoma Oluo exposes the devastating consequences of white male supremacy on women, people of color, and white men themselves. Mediocre investigates the real costs of this phenomenon in order to imagine a new white male identity, one free from racism and sexism. As provocative as it is essential, this book will upend everything you thought you knew about American identity and offers a bold new vision of American greatness.

(Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white

fragility and "allows us to understand racism as a practice not restricted to "bad people" (Claudia Rankine).

Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

Psychoanalytic theory has traditionally taken sexual difference to be the fundamental organizing principle of human subjectivity. *White Men Aren't* contests that assumption, arguing that other forms of difference—particularly race—are equally important to the formation of identity. Thomas DiPiero shows how whiteness and masculinity respond to various, complex cultural phenomena through a process akin to hysteria and how differences traditionally termed “racial” organize psychic, social, and political life as thoroughly as sexual difference does.

White masculinity is fraught with anxiety, according to DiPiero, because it hinges on the unstable construction of white men's cultural hegemony. White men must always struggle against the loss of position and the fear of insufficiency—against the specter of what they are not. Drawing on the writings of Freud, Lacan, Butler, Foucault, and Kaja Silverman, as well as on biology, anthropology, and legal sources, Thomas DiPiero contends that psychoanalytic theory has not only failed to account for the role of race in structuring identity, it has in many ways deliberately ignored it. Reading a wide variety of texts—from classical works such as *Oedipus Rex* and *The Iliad* to contemporary films including *Boyz 'n' the Hood* and *Grand Canyon*—DiPiero reveals how the anxiety of white masculine identity

framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard
