World Geography: Building a Global Perspective is a standards-based program that helps students understand how geography impacts their lives. The story-telling narrative and integrated visuals - combined with user-friendly teacher support and interactive tools - makes it easy to present lessons that are both current and compelling. The program keeps geography relevant through its in-depth, country-by-country coverage, and up-to-date through online current events updates. It presents key concepts through maps and visuals and prepares students for success on geography assessment.

Keeping geography relevant and up-to-date through country-by-country coverage and online updates, this standards-based program helps students understand how geography affects their lives. The text's strong maps and visuals present key concepts in human and physical geography, while step-by-step skills instruction prepares students for success on assessment. An award-winning video collection helps students develop mental maps of their world through maps, animation, live footage, and case studies. World-class visuals that provide a dramatic overview of each region Hands-on activities in the Geographer's Apprentice Activity Pack that explore the world's regions through maps, data, and primary sources Do-it-yourself skills that take students beyond simple tasks to help them think like geographers An award winning video collection that helps students develop mental maps of the world

Develop geographic literacy with the only high school geography text co-authored by the National Geographic. Help your students make the connection between geography and history, as well as geography and current events.

The Geography Colouring Book provides a reference book of facts regarding population, land size, languages, religions, exports, climate, etc., plus information about unique geographic features and events of historic significance. Each section begins with a plate containing a political map, a physical map and regional maps. Through active participation by colouring, the student can gain a broader understanding of the material and retain more information. The text also includes a new Geographical Dictionary and covers the five nations rising out of the former Yugoslavia. It aids in recognizing countries by shape as well as location and gaining a sense of the relative sizes of nations and states *Each section begins with a plate containing a political map, a physical map, and regional maps *Through active participation, coloring the maps, students gain a broader understanding of the material and retain more information
